WORK EXPERIENCE

Software Engineer *Jul 2024 – Present (1 yr+)*
ApplogiQ *Tiruppur, Tamil Nadu*

- ▶ Architect and ship production-ready React.js / Next.js / TypeScript frontends for clients across real estate, SaaS, healthcare, and e-commerce verticals.
- ▶ Integrate FastAPI-powered REST APIs across 3 live applications, working tightly with backend and design teams to meet sprint deadlines.
- ▶ Drive cross-browser compatibility and responsive UI standards across all deployments through reusable component libraries.
- ▶ Set up and maintain CI/CD pipelines with GitHub Actions — automating build, test, and deploy processes.

KEY PROJECTS

Crayoon — Enterprise Uniform Management & E-Commerce Platform | Aug 2025 – Feb 2026

- ▶ Engineered a full-scale e-commerce platform for schools and corporates covering product catalogue, size allocation, order processing, and fulfilment.
- ▶ Built 20+ reusable React components across web and mobile breakpoints — reduced UI development time for new modules by ~30 %.
- ▶ Integrated FastAPI backend services for real-time inventory, order handling, and client management.
- ▶ Co-authored Jest + React Testing Library test coverage for components and form-validation logic.

Vigilance — *Property Security Assessment & Reporting System* | Mar 2025 – Aug 2025

- ▶ Built a data-driven mobile-first web app for field security assessments, risk analysis, and structured report generation.
- ▶ Reduced report load time by ~40 % for 1,000+ record datasets using DOM virtualisation and lazy loading.
- ▶ Designed interactive dashboards and dynamic form workflows integrated with FastAPI for real-time data operations.

ShopQ — *SaaS E-Commerce Landing & Conversion Interface* | Sep 2024 – Mar 2025

- ▶ Delivered a conversion-optimised landing platform for a SaaS product featuring product catalogue, order tracking, and customisable storefronts.
- ▶ Built responsive, component-driven UI with React.js and Bootstrap; implemented lead capture forms and interactive demos supporting the go-to-market launch.
